General Faculties Council

Mandatory provincial diploma examinations and their implications to the University provided a primary topic of discussion at the 31 October meeting of General Faculties Council.

Two resolutions put forward by the Committee on Admissions and Transfer (CAT) dealt with diploma examinations. Amy Zelmer, Associate Vice-President (Academic), opened discussion by explaining that when the provincial government announced the mandatory diploma examinations the University did not have sufficient information or enough time to establish a policy. However, CAT felt that in fairness to prospective students and the University a policy must be formulated. Registrar W. Blanchard added that the University is in agreement with the examinations although it is still not known how the University will use them. President Horowitz stated that if the University is expected to use these examinations then it must also have input into their development. He added that it is in the University's long-term interest to place importance on diploma examinations. GFC endorsed these recommendations: (1) Students be admitted in January 1984 on the basis of school-awarded marks and be informed that they must write Diploma Examinations in January 1984; (2) For September 1984 only, the Uni-

versity take the higher mark—either the school-awarded mark or the diploma examination mark—for subjects in which both grades are available. In this way, during the phase-in period, no student will be denied admission because of the University's decision to take one set of grades or the other.

Prior to the lengthy examination debate, members addressed a number of issues. The question period began with a query from Dean Badir, Faculty of Home Economics, who asked why, when one year ago a set of priority guidelines was set for the Planning and Priorities Committee, a switch in priority had occurred. Dean Badir was referring to the priority set for a Civil Engineering building which was switched to an Electrical Engineering facility. In response, Dr. Horowitz explained that the Engineering Faculty had originally requested that its building priority be divided into two categories instead of prioritizing only one. Subsequently, the Faculty was asked to decide on one building and thus the switch. Dr. Horowitz added that the priorities procedure should and will be reviewed.

Members then heard reports from Dean McDonald, Faculty of Science, who informed Council of items discussed at the last Board of Governors meeting on 7 October, and U.M. Maydell, Computing Science, who

presented the Nominating Committee Report announcing the faculty members who had been elected to serve on various review and selection committees. The annual reports of the GFC Undergraduate Scholarship Committee and GFC Conference Funds Committee were received.

The Faculty of Science asked for GFC endorsement of two academic standing changes, one in basic degree requirements and the other in connection with the admission and promotion in the specialization in Psychology. In reference to the first request, Dr. Cossins, Department of Botany, outlined the Faculty's report adding that the suggested proposals were reasonable and that the change in academic standing would better equip students to obtain a BSc degree. On the Psychology matter, Dr. Cossins explained that it was felt necessary to upgrade the marks for admission and promotion. Both of these motions were endorsed.

Considerable discussion ensued following the motion concerning student representation on Faculty Councils and selection committees for Department Chairmen. Dr. Horowitz explained that the two proposals reached Council without the recommendation of its Executive Committee because members' opinion was split. There was no discussion in passing proposal one which stated that Faculty Councils have representation from un-

dergraduate and graduate students, the exact number to be determined by each Faculty Council. However, proposal two, dealing with student membership on selection committees for Department Chairmen, did give rise to discussion. Graduate student representative Ludger Mogge expressed the opinion that there is no reason why students should not sit on such a committee. He said that some Faculties and departments already have student representatives on committees and this motion would simply make it a consistent policy throughout the University. Dean McDonald commented that this idea was discussed at Deans' Council and it was the majority opinion that the current legislation was working well and should be left alone. In the end, the motion was tabled. It will be discussed at the next meeting.

The Annual Report of the Housing and Food Services Administrative Council was presented and P. Taitt, Executive Assistant to the Vice-President (Facilities and Services), commented that the re-organization of the Council had been accepted and was working well. Peter Miller, Dean of Students, then highlighted a few of the points included in the request for change in the composition of the Council on Student Services (COSS). He said that a sub-committee had been appointed to investigate this proposed change

and it was their recommendation that was before Council. This motion was carried.

A report on the preparation of the 1983-84 operating budget was given by L.C. Leitch, Vice-President (Finance and Administration). He noted that the guidelines and principles for the budget were already underway. Each year, Mr. Leitch said, there is a problem in timing, mainly because the University does not know how much the provincial government grant will be until late March or early April and because staff salary settlements are not known when the administration is estimating the budgetary needs. On 28 November, GFC will be presented with the principles and policies

governing the 1984-85 budget.

A Faculty of Arts proposal that admission requirements for non-matriculated adults be amended was tabled following a request that a decision not be made until the sub-committee on mature students had completed its studies.

Four new student members—Bill Shores, Joseph Katzenbach, Earl Smith and Donald Stanley—were appointed to Council.

Information on any of the topics mentioned here may be obtained by speaking with GFC members. The names of such people, and advice on GFC matters, may be received by telephoning the Secretariat at 432-4965. □

Kaplan Named to National Advisory Committee on Biotechnology

J. Gordin Kaplan, Vice-President (Research) of this University, has been appointed to the National Advisory Committee on Biotechnology established 26 October by the Hon. Donald J. Johnston, Minister of State for Science and Technology and for Economic Development. The new Committee is regarded as an in-

tegral part of the Biotechnology Strategy for Canada announced last May by Mr. Johnston as an element of the Technology Policy.

Twenty-five members, including representatives from the private sector, universities, and government, have been appointed by the Minister to serve on the Committee. They will advise the Minister directly on the development of biotechnology in areas such as energy, food, drugs, chemicals, plastics, mining, and agriculture.

In a speech to members of the Committee on the occasion of its first meeting in Montreal, Mr. Johnston said, "This committee will provide guidelines and ensure that the opinions of industry and the universities are a major factor in the federal government's programs in the field of biotechnology—a field of increasing importance to economic development."

According to Dr. Kaplan, Vice-President (Research) since 1 July 1981 and a biochemist of international acclaim, "What makes the committee of such potential value is its direct access to the Minister and the Office of Science and Technology." □

Operation Kick It

Being fitness coordinator for the University, Art Burgess would like to reduce Marlboro country to a tract the size of a postage stamp and have people walk (or run) a mile and not have a Camel as a reward. Dr. Burgess, feeling that there are others on campus who are simpatico, is organizing Operation Kick It, an eight-session program spread over two months. The starting date is 16 January.

The goal of Kick It is to induce 500 smokers to eschew the weed. A number of smoking cessation counsellors, each of whom would work with a group of about a dozen people, are required. Dr. Burgess, who will hold two training seminars early next month, is busy recruiting counsellors or, as he puts it, "lay people who can help other lay people." Anyone interested in volunteering is asked to telephone Dr. Burgess at 432-5607.

For Kick It to be successful, people have to want to stop smoking, he says. Counsellors will not exert social pressure on people to quit, Dr. Burgess emphasizes. Kick It will systematically attack smoking habits. The less essential habits will be eliminated early and certain periods of the day will be declared non-smoking periods. The idea is to move from success to success; there will be no "cold turkey" on the menu.

Group support will be encouraged. If several people in an office decide that together they can ditch the habit, the task of the counsellor is lightened. He and his group can also draw encouragement from the fact that Kick It has the wholehearted support of the Alberta Lung Association. □

First Grant for Third World Collection

The Centre for International Education and Development, Department of Educational Foundations, has been awarded an initial Social Sciences and Humanities Research Council grant of \$15,000 to develop the Third World collection in the Herbert T. Coumts Library.

The collection is expected to consist of pre-1983 publications on education and education-related topics published in Third World countries. Special emphasis will be placed on reports of Ministries of Education, other government departments and educational institutions, and other publications which are not available through regular commercial publishers. □

United Way Canvass Report No. 5

This report covers the canvass period up to and including 2 November. By that date, the official United Way canvass of the University Employee Group had raised \$108,515.31 or 60.3 percent of the campaign objective of \$180,000. The forty-one member agencies of the United Way thank 401 academic and 270 non-academic staff members for their donations.

It is not too late to make your United Way donation. The cut-off date for November payroll

deductions is 15 November. You may choose to make a continuing monthly donation, a single deduction during the month of your choice, or you may forward a cheque payable to the United Way of Edmonton. Telephone the Payroll Office, 432-3207, to request a payroll deduction authorization form. Please remember that your United Way gift is fully tax deductible and that you may designate your gift to the service or agency of your choice. □

Police Department's University Liaison Officer a Busy Man

Talk about covering the waterfront. Len Hudyma is the Edmonton Police Department's Liaison Officer for The University of Alberta and nine hospitals, including the University Hospital.

No other police force in Canada has a full-time liaison position of this kind and Constable Hudyma, who was appointed last May and given *carte blanche* by Police Chief Robert Lunney, has adopted a pro-active role. "It's strictly a public relations function," he told *Folio* last week. Given the choice of wearing a uniform or plainclothes, he opted for the former although he won't be acting in a law enforcement capacity.

The position was created after President Horowitz and Chief Lunney agreed that there was a need for a liaison officer. The advertisement called for an individual from the Department's Community Services Section and

Constable Hudyma applied post-haste.

A 1979 graduate of this University (BEd), he had spent two years in a patrol car and another two years on the 96th Street beat.

W.F.G. Perry, Director of Campus Security and Parking Services, helped Constable Hudyma get a foot in the door by setting up appointments with various individuals including President Horowitz; Frank Jones, Dean of Law; Robert Silverman, Chairman of the Department of Sociology; and Chancellor Savaryn.

Constable Hudyma's first presentation was in September to a group of international students. He talked about pedestrian safety, liquor laws, the significance of telephone number 911, and what to expect from the police should they (students) ever be incarcerated.

He has also spoken in the De-

partment of Educational Psychology ("Juvenile Delinquency"), the Faculty of Law ("Health Law Project"), and conducted security evaluations with Lister Hall administrators.

Constable Hudyma has met with the Students' Union executive to outline his function and proposed programs. He also held a meeting with Pharmacy and Pharmaceutical Sciences person-

nel and is planning to speak on a number of topics, including "Robbery Prevention" and "Forged Prescriptions."

On-going liaison with the Faculty of Law and the Department of Sociology is another facet of the job.

"There are a lot of professional people here who can provide me with interesting data. I want to generate the feeling that people can meet with me on a low-key, informal basis. If I can't provide the appropriate information, I'll identify those who can," he told *Folio*.

Police headquarters is home base for Constable Hudyma but he spends about half his working day at the University and/or one or more of the hospitals. He can be reached at 421-3429 or through Campus Security, 432-5252. A brochure explaining the liaison program and services will be available early in January. □

Review of Campus Discipline, Law and Order Procedures Initiated

The University community's concern over the recent increase in complaints lodged with the Student Discipline Officer is evident from the number of pertinent letters published in *Gateway* and the petitions received by the Campus Law Review Committee. A study of these petitions has evinced several fundamental weaknesses in the Code of Student Behavior. Indeed, questions of a basic philosophical nature must be answered and therefore the Campus Law Review Committee has initiated an exhaustive review of the Code.

It is not necessarily the intention of the Campus Law Review Committee to re-write the existing regulations but to re-examine them in the focus of current realities. A simplistic approach would be immediately to focus on a section which is very evidently a candidate for re-

formulation, such as the Penalty section. However, a more fundamental problem pertains to the very philosophy of the Code.

The Code has been kept as non-legalistic as possible. It was envisaged that few cases would actually be prosecuted under it. Indeed, the student was well protected and probably sheltered from many of the legal implications of his actions. However, the number of complaints received by the Student Discipline Officer is now approaching epidemic proportions. Thus, while The University of Alberta has developed the most highly structured and rigid Code of all western Canadian universities, its low-key nature presents many problems which have been realized in recent years. Thus it could readily permit abuse and manipulation of the University Discipline, Law and Order Sys-

tem by partisan groups who wish to further their own political ideology. In addition, the Code appears to indicate that any member of the campus community is *directly* responsible for the integrity of the University in so far as a charge may be prosecuted, however adequately or not, by any member of the University. The Code describes the roles of the Student Discipline Officer and of the Disciplinary Panel in very general terms and ignores, in the main, the roles of Campus Security and of the Deans' Offices in discipline procedures. This lack of direction has often impeded the efficient disposal of cases.

These and other concerns have caused the Campus Law Review Committee to solicit input from the campus community as to its perception of the need for a more structured Code with a tighter

control over the actions of students. Or is the maintenance of the *status quo* in which the disciplinary procedures and regulations play a low-key role in student affairs, preferable?

Your opinions as they relate to the philosophy and the specifics of the Code of Student Behavior are therefore solicited and should be submitted in writing to Mrs. P.M. Plaskitt, Secretary, Campus Law Review Committee, 2-5 University Hall, by 31 January 1984. Please indicate your name and address so that you can be contacted should any clarification be required if and when the Code is refined. Copies of the Code may be obtained from Mrs. Plaskitt.

Thank you for your attention in this matter.* □

*The preceding article reached *Folio* from the Campus Law Review Committee.

Thomas Taylor: Distinguished Visitor

The Department of Botany is hosting Thomas N. Taylor, Distinguished Visitor. Dr. Taylor, a botanist of international repute in the area of paleobotany, will be on campus until the end of November.

Professor Taylor received his undergraduate degree from Miami University, Oxford, Ohio, in 1960 and his PhD from the University of Illinois, Urbana, in 1964. He spent one year as a post-doctoral fellow at Yale University before taking up a faculty position at the University of Illinois, Chicago Circle.

From 1972 to 1974, he served as Professor and Graduate Chairman of the Department of Botany, Ohio University, Athens. In 1974, he was hired as Chairman of the Department of Botany, Ohio State University, Columbus, where he currently runs one of the world's most productive paleobotany laboratories.

Dr. Taylor has held many professional offices, including that of Secretary-Treasurer of the International Organization of Paleobotany. He has served on the Systematic Biology Panel of the National Science Foundation, the Botanical Society of America Council, and on the editorial boards of a number of paleontological journals. He is currently Director of the Scanning Electron Microscope facility in the College of Biological Sciences, and on the Board of Directors of the Institute of Polar Studies and the Research Foundation of Ohio State University.

His vigorous research program has resulted in more than 118 refereed papers and three books. Dr. Taylor's text *Paleobotany: An Introduction to fossil plant biology*, McGraw-Hill Book Co., New York, is currently in use in the Paleobotany course (BOT 460) at The University of Alberta.

Professor Taylor is well-known for his pioneering work using the transmission and scanning electron microscopes in the study of fossil plants. He encourages his

students to make the most of their fossil material by using meticulous techniques. Most of the research papers coming out of his laboratory are at the cutting edge of the field. Beginning with ontogenetic (developmental) studies of fossil plants to their reproductive biology, to the study

of meristematic and soft tissues (shoot apices, vascular cambium, and phloem), Dr. Taylor has encouraged his students and post-doctoral fellows to tackle subjects that most botanists felt could never be studied in fossil organisms.

While at our University, Pro-

fessor Taylor is participating in the teaching of the paleobotany class, giving a number of guest lectures, participating in research projects, and assisting in the planning for the 2nd International Organization of Paleobotany meeting to be held in Edmonton 18 to 26 August 1984. □

Psychiatric Congress An 'Absolute Madhouse'

Conventions are always a bit of a circus, but then so is life. Medical congresses are worse and the World Congress of Psychiatry is an absolute madhouse. I know, because I've been to many—my latest venture a month ago in Vienna.

Imagine travelling thousands of miles to give a paper for sixteen minutes or less. It is the quintessence of your clinical wisdom in an eyeblink, flapping along with the blepharospasms of 14,000 psychiatrists, speaking in different tongues, nearly all at once, for a whole week! Imagine the honor and glory of spouting about the psychophysiology of crying and about tardive dyskinesia to the great unwashed shrinks of the world.

At the same time, their spouses and various dependants literally took over the inner Ring of Vienna, while the natives mounted the outer ramparts in order to keep them in.

The ancient palaces where the congress of mind-examiners was being held reverberated with psychiatric lingo, often in original Viennese. Nobody, but nobody, listened, of course. For one thing the din in this madhouse was more deafening than that of the original McCoy. For another thing, while papers were being read, the shrinks wandered in and out of the hollow sounding rooms of these palaces like noisy somnambulists.

Theory

Now I had long ago formulated a theory that psychiatrists were constitutionally unable to listen, particularly to each other and most particularly at a world congress. Looking, yes—especially over the shoulder of whoever was talking to them—hearing, maybe. But listening, no.

On this Viennese occasion I finally decided to put this theory to the test. I bet a bunch of pals 1,000 shillings each that I could get away with giving a paper, in a noisy, multilingual room in the place for six minutes, in unintelligible language, talking total drivel, with nobody stopping me or even noticing. They accepted the bet. Now, this was worth coming all the way to Vienna for.

I prepared the chairman of the session by telling him I was a Canadian—which implied being bilingual, at least. I added that my country was now a quiltwork of ethnicities and that because I was fortunate enough to be multilingual and since they would all be here, listening to their own, I proposed to speak in *all* their tongues.

The only white lie in this was that they'd all be listening to their own for Canadians are infamous for disdaining their own.

The chairman smiled what I took to be assent, either because he thought I was joking, or be-

cause he thought I was crazy like the rest. It could have been that I had impressed him with my charismatic presence as well and with my Oxbridge accent and tie. I didn't care which, when I looked at him from the podium and he nodded for me to begin, with a visible twitch in his circumoral muscles.

I then proceeded to give the mob an impassioned speech on self-therapy in home-made Esperanto, on the following lines:

"Ich sein troppo dishonoreu to be standing devant vous, amici di diavolo, and mother lieben productzionne de Oedipal incest (there was slight clapping here). Since none of yuse écoute ever, and since even if yuse did écoute vous non comprende niente, Yo prende cinque minuta, pour vous rendre ien kliene ditty que compris tous que je voudrai vous dice. Hear then this ditty:

Freud

Be not a Freud (again slight clapping),
June men of fragile mind, Car si usted avez peur, Und poop votre pantaloni Tutto il mundi wilt haben peur Und poop theirs.

Perro si usted e forte et brave, Tutto mundi wilt haben Cleaner pantaloni.

Nun clap your handies vous shrinkers di capita, perche j'ai fini. Sanky you much!"

I don't mind telling you that

by then I was sweating and near to doing what I had urged my peers not to do.

There were a few narcoleptic nods and senile smiles in the front row. The back rows were messing about, thank God, as usual. And then *mirabile dictu*, a polite drizzle of clapping.

I had done it!

Having collected the small fortune on bets, I took my dying-with-laughter-pals for champagne and Wiener schnitzel at the Drei Hüssaren, in order to celebrate my only theory that I had ever been able to prove.

And if you don't believe me, try it yourself, at any old congress. *□

**This article was written by Daniel Cappon, a Toronto psychiatrist. It was first published in the 4 October 1983 issue of The Medical Post.*

service information

All information to be included in this column must reach the Office of Community Relations by 9 a.m. the Thursday prior to publication.

Coming Events

Lectures and Seminars

Department of Forest Science

10 November, 3:30 p.m. Trevor A. Thorpe, Department of Biology, University of Calgary, "Propagation of Conifers by Tissue Culture Methods." 344 Chemical/Mineral Engineering Building.

Alberta Heritage Foundation for Medical Research

10 November, 3:30 p.m. Philip S. Holzman, Department of Psychology and Social Relations, Harvard University, "The Search for a Biological Marker for Schizophrenia." CW-410 Biological Sciences Building.

16 November, 10 a.m. Alfred Singer, Immunological Branch, National Cancer Institute, Bethesda, M.D., "Initiation of Allergic Reactions." 8-66 Medical Sciences Building.

Department of Entomology

10 November, 4 p.m. John R. Spence, "Structure and Evolution of the Mating System in Two Hybridizing Species of Waterstriders (Heteroptera: Gerridae)" or "Paternity Suits in Semi-Aquatic Bugs." 245 Earth Sciences Building.

Faculty of Medicine

14 November, 8 a.m. Victor Bernhard, "Aortic Graft Infections and Aorto-Enteric Fistulae, Diagnosis and Management." 2-115 Clinical Sciences Building.

15 November, 9 a.m. Dorothy Barnard, Izaak Walton Killam Hospital, Halifax, "Blood Transfusions in Renal Transplantation." 2-115 Clinical Sciences Building.

Department of Anatomy

15 November, 4 p.m. L.A. Kennedy, Department of Pharmacology, University of Saskatchewan, "The Pathogenesis of Brain Abnormalities in the Fetal Alcohol Syndrome." Supported by the Alberta Heritage Foundation for Medical Research. 6-28 Medical Sciences Building.

Boreal Circle

15 November, 8 p.m. Barbara F. Schweger, "Clothing the Early Expeditions: An Essential Contribution by the Native Seamstress." CW-410 Biological Sciences Building.

Department of Health Services Administration and Community Medicine

16 November, noon. Héctor Blejer, Consultant, Occupational and Environmental Medicine, Los Angeles, "Asbestos Related Diseases." 2-115 Clinical Sciences Building.

Department of Sociology

16 November, noon. Reg Basken, Energy and Chemical Workers' Union, Trade Unionist-in-Residence, "Union—Management Relations in Canada: Issues for the 1980s." 5-15 Tory Building.

23 November, noon. P. Krishnan, "Sex Differential in the Mortality Among Jains of India." 5-15 Tory Building.

Department of Botany

16 November, 3:30 p.m. Thomas N. Taylor, Department of Botany, Ohio State University, "Paleobotany: Fine Structure, Fungi and Feces." M-137 Biological Sciences Building.

Departments of Philosophy and Religious Studies

16 November, 4 p.m. Renford Bambrough, President of St. John's College, Cambridge, and Editor of *Philosophy*, the journal of the Royal Institute of Philosophy, "Fools and Heretics." L-4 Humanities Centre.

Alliance Française

16 November, 8 p.m. Jean Ferniot, well-known French journalist and writer, "Qu'est-ce qui fait un 'best-seller'." Faculté Saint-Jean Amphitheatre.

Faculty of Arts

16 November, 8 p.m. Reg Basken, Trade Unionist-in-Residence (Executive Assistant, Energy and Chemical Workers' Union), "The Future of Labour Relations in Alberta." L-1 Humanities Centre.

Faculty of Library Science

17 November, noon. Fast Forward videotapes, "Space," "Business of Information," and "Security." 1-17 Rutherford South.

24 November, noon. Fast Forward videotapes, "Medicine," "Military Communications," and "About Computers." 1-17 Rutherford South.

Department of Romance Languages

17 November, 4 p.m. R.A. Young, "Describing the Narration of Things Past." 5-20 Humanities Centre.

Department of Geography

18 November, 3 p.m. David Luff, PhD candidate, "The Integrated Management of Resources in the Eastern Slopes Region of Alberta."

Department of Art and Design

18 November, 2 p.m. "Expressionism Past and Present," a slide lecture by Karen Wilkin, formerly head curator for the Edmonton Art Gallery and currently a freelance curator based in Toronto. L-1 Humanities Centre.

Department of Educational Foundations

18 November, 3 p.m. Robert Moore, Carleton University, "The Media—Information, Awareness and Development." 4-114 Education North.

Department of Zoology

18 November, 3:30 p.m. Ray Oglesby, Department of Natural Resources, Cornell University, "Trophic Level Interactions—Elton Revisited." CW-410 Biological Sciences Building.

Canadian Institute of Ukrainian Studies

18 November, 7:30 p.m. Oleh Ihnytskyj, "Mykola Khvylovy and the Futurists: The Myth vs. Reality." Heritage Lounge, Athabasca Hall.

Faculty of Nursing

22 November, 5 p.m. Vivian Wahlberg, Karolinska Institute, Stockholm, "Nursing Research in Maternal-Neonatal Care." 2-117 Clinical Sciences Building.

Department of Classics

24 November, 3:30 p.m. Colin Orton, Curator of Numismatics, Nickle Art Museum, University of Calgary, "Coins of the Roman Empire." 1-8 Humanities Centre.

St. Joseph's College

24 November, 3:30 p.m. W.P. Platt, csb, "When the Queen Goes Begging" (theology and literature). Faculty Lounge, St. Joseph's College.

Music

Department of Music

All events take place in Convocation Hall and are free of charge unless otherwise specified.

10 November, 2 p.m. Masterclass by David Burge.

10 November, 8 p.m. Chamber Music—Voice Recital by Alexander Tumanov.

12 November, 2 p.m. Lecture/Recital by

David Burge, "Recent Music." 1-23 Fine Arts Building.

13 November, 2 p.m. Edmonton Youth Orchestra, Michael Massey, conductor.

14 November, 8 p.m. Lecture/Recital by Lillian Upright, Candidate for DMus, "The History of the Prelude in Keyboard Interpretation."

15 November, 5 p.m. Art Song Interpretation (performers are students from the class of Alexandra Munn).

17 November, 8 p.m. The University of Alberta Madrigal Singers—Leonard Ratzlaff, director.

Exhibitions

Ring House Gallery

Until 20 November. "Type/Sign/Image." An exhibition of color photographs by Walter Jungkind.

Until 27 November. "Suzanne Bell M.V.A." This exhibition of paintings is presented in partial fulfillment of the Master of Visual Arts program.

Films

Department of Germanic Languages

16 November, 7:30 p.m. "Barbier von Bagdad." Arts 17.

Radio and Television

Radio

Programs broadcast on CKUA radio 580 AM and 94.9 FM.

12 November, 7 p.m. University Concert Hall Piano Recital. Guest: Helmut Brauss.

16 November, 7 p.m. Celebrations—Interview and reading with Phyllis Webb.

19 November, 7 p.m. University Concert Hall Saxophone Recital. Guest: Jeremy Brown.

Television

Programs broadcast on ETV Q-9 and C-13.

16 November, 8 p.m. Faculty Profiles: Department of Anthropology, "Man's Place in Time." The search of man's origins and history through Physical, Cognitive, Cultural, and Archeological Anthropology.

Sports

Volleyball

11 and 12 November, 9 a.m. CWUAA Opening Tournament. Varsity Gym.

Hockey

18 and 19 November, 7:30 p.m. Golden Bears vs. University of Saskatchewan Huskies. Varsity Arena.

Wrestling

19 November, 10 a.m. Golden Bear Open. Varsity Gym.

Basketball

19 November, 8 p.m. Pandas vs. University of Regina Cougettes. Varsity Gym.

Matters of Faith

Catholic Campus Ministry

St. Joseph's College
Sunday Mass: Saturday, 4:30 p.m., Sunday, 9:30 and 11 a.m. and 4 and 8 p.m.
Weekday Mass: Monday, Wednesday, Friday, and Saturday at 12:10 and 4:30 p.m. and Tuesday and Thursday at 12:30 and 4:30 p.m. Also Monday to Friday at 7:30 a.m.

Lutheran Campus Ministry

Sundays, 10:30 a.m. Worship with Holy Communion in the Newman Centre of St. Joseph's College. The University community is welcome to attend.
7:30 p.m. Thursday evening worship at the Lutheran Student Centre, 11122-86 Avenue.
Wednesdays at noon. Bible Study, 158A Students' Union Building.

Chaplains' Association

Mondays, 7:30 p.m. Evening Prayer in preparation for the Pilgrimage of Reconciliation and Hope by the Taizé Community. St. Joseph's College Chapel.

SUB Theatre

Films

14 November, 8 p.m. The Edmonton Film Society presents "Moonlighting" (1982). Admission by series tickets only, available at SUB Box Office, Woodward's, and the door.
16 November, 8 p.m. "Without a Trace" (1983).

Concerts

10 November, 8 p.m. Perryscope presents "The Spoons."
11 November, 8 p.m. The U of A Group for Nuclear Disarmament and Women's Disarmament Campaign present "Connie Kaldor and Heather Bishop." For more information, call 432-7051.
17 November, 8 p.m. "Repercussion." Tickets available at all BASS outlets.
18 November, 7:30 p.m. Eden Promotions present "Benny Hester Band." For more information, call Andrew Doubroff at 438-0120.
19 November, 8 p.m. "Sweet Adelines Concert." For more information, call Mildred Kluey at 451-0950.

Computing Services

Client Training Sessions

Computing Services is taking registrations between 8:30 a.m. and noon for the following non-credit courses. *Please phone 432-2511 first to confirm the dates.* Payment is required in advance and clients who do not cancel two business days in advance will be charged. Contact Carey, Training Assistant, 352 General Services Building, telephone 432-2511, for more information.
MTS and Editor Fundamentals #1088

Notices

Review of Director, Centre for the Study of Mental Retardation

Information about the administration of the Centre for the Study of Mental Retardation is being solicited as part of the normal process of performance review after five years in office. Please forward submissions to the Office of the Vice-President (Research) 3-3 University Hall, telephone 432-5320, by 18 November 1983.

Honeywell Futurist Awards Competition 1983

Honeywell Ltd. has issued invitations to full-time students at seventy-two Canadian colleges and universities to participate in the first Honeywell Futurist Awards Competition.

In order to compete for cash prizes and

recognition at a national presentation in Toronto in March, competitors are asked to submit essays predicting the developments and the resulting societal impacts of the next twenty-five years in several technological areas. Possible topics include Biomedical Technology, and Computers and Energy.

Judging panels comprised of experts in such areas as education, research and development, scientific media and technology will review the students' essays and choose the six Futurist Awards winners.

The deadline for entry requests is 1 December 1983. To get the official entry book, write to: Honeywell Futurist Awards Competition, 155 Gordon Baker Road, Willowdale, Ontario M2H 3V7.

Muttart Diabetes Research and Training Centre

The Muttart Diabetes Research and Training Centre was formed in June 1981 at The University of Alberta, through an endowment by the Gladys and Merrill Muttart Foundation.

The objectives of the Centre are to provide core laboratory facilities for the Centre's investigators; to provide start-up funding for pilot projects; to train investigators interested in diabetes-related research; and to encourage interaction between investigators of the various disciplines and health professionals involved in the care of diabetic patients.

In keeping with these objectives, the Centre is now accepting diabetes-related pilot project proposals. The funding for each project will be a maximum of \$7,500 and the deadline for submission is 1 December 1983.

Further details and application forms may be obtained by contacting: Mrs Shirley Moore, Executive Secretary, 8-113F Clinical Sciences Building, The University of Alberta, Edmonton, Alberta T6G 2G3. Telephone 432-6855.

Dogs on Campus

W.F.G. Perry, Director, Campus Security and Parking Services, advises dog owners to heed the following resolution adopted by the Board of Governors in 1976: "Dogs not owned by the University are only allowed on campus while on a leash. It is not permissible to tie up a leashed dog and leave it unattended on campus. Dogs, except for seeing-eye dogs, are not allowed in any campus buildings."

Research Grants

The Boreal Institute for Northern Studies is currently accepting applications for "Northern Science Training Grants" for supplementary travel and subsistence costs for northern research. Grants are available only to supervised graduate students (Canadian citizens or permanent residents) at The University of Alberta.

The deadline for application is 18 November 1983.

Additional information and applications may be obtained from the Director's Office, Boreal Institute for Northern Studies, CW-401 Biological Sciences Building, telephone 432-4512 or 432-4999.

Scholarships, Fellowships and Awards

NATO Fellowships 1984-85

Fellowships in Transportation

Donor: Transport Canada. *Where tenable:* At any Canadian university but in special circumstances (at the PhD level) may be approved for tenure outside Canada. *Level:* Post-graduate. *Field:* In any discipline related to transportation. *Value:* (a) PhD level Fellowships, \$10,000; (b) Master's level Fellowships, \$5,000; (c) Industrial Fellowships, \$10,000. Tuition and fees are to be paid by the student. *Number:* Unspecified. *Duration:* (a) May be held for a period of three years. (b) One year. (c) Unspecified. *Conditions:* Canadian citizens or permanent residents. *Closing date:* 12 January 1984 (to the chosen university); 19 January 1984 (to Transport Canada through the university). *Further information and application forms should be requested from:* Strategic Policy Directorate (TUP), Transport Canada, Tower C, Place de Ville, Ottawa, Ontario K1A 0N5. Telephone: (613) 593-5696.

Canadian Federation of University Women: Graduate Awards for Women

Several awards ranging between \$600 and \$5,000 are available for the 1984-85 academic year. Applicants must be women graduates who among other things (1) hold a first degree (a master's degree in one instance) at the time of application and (2) are Canadian citizens or landed immigrants. For specific details and application forms, contact the Office of Student Affairs, 225 Athabasca Hall. The application deadline is 15 December 1983.

Positions Vacant

The University of Alberta is an equal opportunity employer but, in accordance with Canadian Immigration requirements, these advertisements are directed to Canadian citizens and permanent residents.

Dean, Faculty of Rehabilitation Medicine

An advisory committee has begun its search for a Dean. Suggestions of possible candidates and assessments of the leadership needs of the Faculty are invited. The appointment will take effect 1 July 1984 or as soon thereafter as a candidate selected by the search committee and approved by the Board of Governors is available.

Nominations or applications for the position, accompanied in the latter case by a detailed résumé of qualifications and experience and the names of three referees, should be submitted by 15 January 1984 to: The Vice-President (Academic), The University of Alberta, 3-5 University Hall, Edmonton, Alberta T6G 2J9.

Non-Academic Positions

To obtain further information on the following positions, please contact Personnel Services and Staff Relations, 2-40 Assiniboia Hall, telephone 432-5201. As positions are filled on an on-going basis, these vacancies cannot be guaranteed beyond 3 November 1983. For a more up-to-date listing, please consult the weekly Employment Opportunities Bulletin and/or the postings in PSSR.
